

## India to witness first of its kind Advatech Ambulance Services

*Kolkata is the first city to experience the services of the unique ICU Ground Ambulances*

**Kolkata, April 15, 2015:** Advatech Healthcare, the first healthcare service facilitator in India and one of the most innovative and youngest & Medical Tourism Service Providers in the World, came up with the first of its kind ambulance in the country to provide 24\*7 levels of services to the patients. **India's First 24x7 Advance Life Support Enabled-ADVATECH ICU GROUND AMBULANCE**, a unique emergency service of state-of-the-art ICU ground ambulances for the patients. Mr. Samit Kumar Biswas – CEO, Advatech Healthcare, was present to brief the media.

It is the 'Time' which is very crucial in case of emergency and also taking the patients properly without any delay to the hospitals with care, comfort and convenience along with a personal touch. Advatech pledges to facilitating the whole process of medical services on time by bringing together for the first time in India, world class service provider and integrating them seamlessly.

Kolkata became the first city to experience the services of the state-of-the-art ICU ground ambulances. The services can be availed with the best of medical care, anytime anywhere in the city. The ambulance features from hospital emergency rooms to doctors, nurses and the latest equipments along with the highly trained drivers who can also provide first aid services.

The BLS (Basic Life Support) & ALS (Advance Life Support) Ambulances is the first of its kind feature which enhances the safety of the patients. The High End Ambulances, under the technical guidance from United Kingdom, has fully Trained Drivers & Medical Staffs with MBBS Doctors with Remotely controlled Patient Ventilator & Tele Consultation The 24x7 services of Advatech Ambulance is far ahead of basic ambulances of Kolkata in terms of Training, Services, Cleanliness & Hygiene and Promptness which the patients are missing due to poor healthcare scenario of the state.

Advatech also announced the Advatech Mobile App to book the ambulance. The app can be downloaded from Google play store and can be used by following few easy steps. Ambulances can also be booked by calling 8100010152 or Toll Free 1800-121-2131 or simply go into [www.bookmyambulance.com](http://www.bookmyambulance.com)

Focusing on the training of staffs and drivers, the group also shared the training courses under the technical guidance from United Kingdom. The courses will include First Responder /BLS/ALS . We are in discussion with Royal College of Surgery , Edinburg for the Global accreditation.

The current number of Advatech Ambulances in the state are 5, which covers locations like South Kolkata, Rajarhat, New Town , Katwa.

From area and expansion's perspective, the group is planning to launch ambulances in different parts of the country adding an average of 8- 10 per city. The brand aims to reach 200 ambulances by the end of 2015. With a national footprint, the brand also aims to reach remote areas of the state which includes Bihar, Jharkhand, Orissa, NE, Goa, Pune & Bangalore.

#### **Some of the unique features of the Ambulance:**

- Proper BLS (Basic Life Support ) & ALS ( Advance Life Support ) Ambulances
- High end Dual A/C Ambulances, under technical guidance from UK
- Every BLS Ambulance comes with a Pulse Oxy-meter, Medical Oxygen & GPS
- Every ALS Ambulance comes with fully Trained Medical Staff with MBBS Doctor
- Remotely controlled Patient Ventilator
- Clean & Hygienic
- 24\*7 Same level of Services
- Tele Consultation

*Speaking at the Press conference, Mr. Samit Kumar Biswas – CEO, Advatech Healthcare, said, "We believe that good health is a primary requisite in the development of a nation and goes hand-in-hand with preventive healthcare which was an issue ignored in India. Timely service helps to save huge amount of resources and time by detecting and curing the diseases before they can inflict any serious harm and reduce the overall disease burden."*
